# The 3<sup>rd</sup> International PET Industry Forum (2015) & RPET Trade Fair

We gather We grow

Nov 5-6, 2015 Hangzhou, China

## Focus

China's PET bottle chip industry faced more challenges in 2015 against more volatile crude oil, frequent regional conflicts, more trading barriers and appreciating US dollar. The Chinese PET bottle chip producers suffered more pressure from squeezed cash flow.

Will China's PET bottle chip exports find opportunities to increase again?  
Will Chinese beverage plants find more support amid El Nino anticipation?  
Asian PET bottle chip export competition turns fiercer under strong US dollar and soft euro.  
How will the market pattern evolve?  
Will PET film industry achieve value-added development and diversification after rapid expansion?

Meanwhile, recycled PET industry also becomes a focus with sustainability and recycling attracting more attention. China's Green Fence action since 2013 is having lasting impact on recycled PET industry. How will China's Re-PET import market evolve?

What are the requirements for Re-PET and recycled fibers? How to cater to the demand?

Zhejiang Huarui Information Consulting Co, Ltd. (CCFGroup) will hold The 3rd International PET Industry Forum (2015) & RPET Trade Fair in Hangzhou New Century Grand Hotel during Nov 5-6, 2015. The spotlight of the conference will be on industry opportunities and challenges in the future bottle grade PET resin industry. We are looking forward to meeting you in Hangzhou!
