5th International PET Industry Forum (2017)

Oct 18-19, 2017
Hangzhou China

Foreword

China's economy continues its steady development in the first half of 2017, with key economic indicators showing improvement. Micro foundation for economic operation strengthens further and economic structure goes on optimizing. Overall, China's economy starts well.

- How will global PET resin market pattern evolve, as competition becomes fiercer and industry more complicated?
- How about application prospect of coal-based MEG in PET resin industry as the technique matures?
- Any opportunity for industry pattern optimizing or transform during PET capacity expansion period?
- How is the exploration of new areas, with traditional PET downstream demand growth slowing down?
- How would Chinese PET resin industry break through the prevailing regional trade protectionism?
- Any potential for China-E.U. trade volume to maintain growing after the lift of 10-year ban on Chinese PET resin?
- How will the soft drink industry fare in 2017 after experiencing years of slowdown?

Zhejiang Huarui Information Consulting Co, Ltd. (CCFGroup) will hold the 5th International PET Industry Forum (2017) in Hangzhou during Oct 18-19, 2017. The spotlight of the conference will be on future development trend of bottle grade PET resin industry. We are looking forward to meeting you in Hangzhou!

About CCFGroup

Zhejiang Huarui Information Consulting Co., Ltd was founded in 1997, as the leading consulting company in chemical fiber and textile industry. "Timely and accurate information" is always upheld as our principle.

As the first website providing chemical fiber market information in China, China Chemical Fiber Website (CCF) is famous for quick response and unique perspective and has achieved the reputation of "No. 1 chemical fiber website in China."

In collaboration with China Cotton Textile Association and China Yarn Dyed Weaving Association, China Cotton Textile Website (TTEB) which integrates the advantages in industry information resources is dedicated to provide authorized industry guidance and accurate market information.

CCFGroup.com integrating selected information from CCF and TTEB has provided industry information and consulting service to overseas customers such as BP, SABIC, Fiber Economics Bureau, Cotton Inc. etc.

With comprehensive data of China chemical fiber and textile industry and professional analyzers, we have been a regular information supplier for Ministry of Commerce as well as National Development and Reform Commission.
