2018 Nylon & Spandex Industry Forum

Nov 08-09, 2018

Holiday Inn Putian Xiuyu

Invitation

Nylon market interprets the “collision between expectation and reality” in 2018. Contract deals are done at high prices, but contract deals are more flexible than spot trading. Is contract trading really healthy? New CPL capacities extend to start up, and new nylon 6 chip capacities under construction exceed one million tons. Will the gap between supply and demand be large? Industry giants emerge one after another, and the industry is more concentrated. How will industrial competition change? Environmental problems are still serious, and accidental plant shutdowns happen frequently. What are the influences on upstream and downstream markets? Demand continues to grow firmly. Will there be breakthrough for traditional products? And will demand of new products keep growing stably?

Spandex capacity expansion would see a new peak in 2018, and industry concentration improves further. The advantages in scales, areas and efficiency become more obvious. Industry reshuffle speeds up, and there are more mergers. How will spandex industry transform? How will Chinese spandex enterprises' international mergers affect global pattern? Will demand growth accord with supply growth? MMDI market outshines others, while PTMEG market is weak. Why the trends of feedstock markets diverge greatly?

We CCFGroup sincerely invite industry experts, leading enterprises and representatives of downstream weaving and garment industries to attend “2018 Nylon & Spandex Industry Forum” in Putian, Fujian in November 8-9, 2018 to discuss in depth the hot issues in the industry. Look forward to your participation!

Lai Tianming

General Manager, Zhejiang Huarui Information Consulting Co., Ltd.

2018年 锦纶&氨纶市场发展论坛

2018 Nylon & Spandex Industry Forum

Nov 08-09, 2018
Holiday Inn Putian Xiuyu

Forum Agenda

P.M. Nov 8

- ◆ Check in before 14:30
- ◆ Visit Eversun Technology Plant at 15:00
- ◆ Welcome banquet at 18:00-20:00

A.M. Nov 9

- ◆ Address from the Organizer and Co-host
- ◆ Welcome address from main leaders of Putian city
- ◆ Changes in Interest Rate Policy and Foreign Trade Environment
- ◆ Aromatic market Status amid Rising Crude Oil Market
- ◆ Deep Integration of Big data and Entity Industry
- ◆ Transformation and Upgrading of Warp Knitting Industry
- ◆ Changes and Trend Analysis of Raw Material Procurement

P.M. Nov 9 Nylon Session

- ◆ Nylon 6 Industry Chain Strategy of Eversun Group
- ◆ Changing Industrial Pattern amid Emergence of Nylon Industry Giant
- ◆ Improvement of Feather Yarn Process and Development Prospect
- ◆ Future of Nylon 66 Fibers
- ◆ Probe into Development Status of Nylon Film Market

P.M. Nov 9 Spandex Session

- ◆ New Pattern of Spandex Industrial Chain
- ◆ Development situation of BDO derivative and PTMEG industries
- ◆ Development and application of elastic polyester fibers
- ◆ Development Prospect of Spandex Non-Apparel Industry
- ◆ Focus on Hot Elastic Fabric Products

Note: topics are still updating and subject to changes
